Philosophy

Red varieties originating from the Iberian Peninsula like Touriga Nacional, Tempranillo, Sousão and Tinta Cão are very suited to our warmer viticultural regions here in Australia. Heathcote is one of those climates. The varieties are late ripening dense reds with lovely colour, deeply scented characters and are ideal early drinking reds for our lifestyle.

Winemaking

Destemmed to closed vats. Extended time on skins. 5 months in used French casks. Gravity handled where possible.
